

Your lecturer:

**Prof. Dr. med. dent.
Fouad Khoury**

Born in Lebanon

- 1978** DMD, St. Joseph University, Beirut
- 1978–** Department of Oral and Maxillofacial Surgery
- 1979** of the University of Freiburg, Germany.
- 1979–** Assistant Professor and later Associate
- 1994** Professor at the Dep. of Oral and Maxillofacial Surgery of the University of Muenster, Germany
- 1984** Diploma in Oral Surgery and Doctorate in Medical Dentistry.
- 1988** Habilitation and senior surgeon at the dep. of Oral and Maxillofacial Surgery of the University of Muenster
- 1988–** Associated Professor at the Department of Oral & Maxillofacial Surgery, University of Münster, Germany
- 1994** full Professor at the Department of Oral & Maxillofacial Surgery, University of Münster, Germany and Chairman of Privat-klinik Schloss Schellenstein, Implantology center, Olsberg, Germany

Several prices (e.g. Pioneers in Dentistry 2016 AUB, W. Laney Award 2017 American A. Osseointegration) and patents. Author of 4 bestseller textbooks translated to more than 10 languages. More than 125 publications and 1.000 lectures / courses worldwide.

REGISTRATION

Bone Grafting Courses with Prof. Dr. Khoury

**Live Surgery and Hands-on-Training
Part I – Part V & Clinical Master Course**

Hereby I would like to register to the course:

- ☐ Augmentation Procedures Part I at _____
- ☐ Augmentation Procedures Part II at _____
- ☐ Augmentation Procedures Part III at _____
- ☐ Augmentation Procedures part IV at _____
- ☐ Augmentation Procedures part V at _____
- ☐ Clinical Masters Program in Bone Grafting
and Soft Tissue Management at _____

I accept the conditions below with my signature.

Titel/Name	
Surname	
Street/Nr.	
Postcode/City	
Phone:	
Fax	
E-Mail	
Date	Signature

Terms and conditions

- The success of the courses is essentially dependent on proper preparation and organization. Please help us by submitting your early written application.
- You will receive a course confirmation and invoice after your application. The course fee includes 19% VAT.
 - The course fee is payable two weeks after receiving invoice. Please don't pay the fee later than eight weeks before the course starts. Please settle the amount by bank transfer to the following account:
Account holder: Privatzahnklinik Schloss Schellenstein
Volksbank Brilon Salzotten · IBAN: DE20 4726 1603 7851 9494 00 · BIC: GENODEM1BUS
The distribution of course places takes place after receiving the payment. The seats can't be reserved.
 - Registration for the course is binding upon receipt of payment.
 - If you need to cancel your registration to the course up to eight weeks before the course starts, the course fee will be refunded. From 8 weeks before the course starts, the course fee will not be refunded, but the registration can be transferred to another course participant.
 - If the course is cancelled for organizational reasons, we can't be held responsible for the incurring costs. This also applies to requirements regarding the content, implementation and other framework conditions of a course.
 - The participant accepts our terms and conditions by registering.
- Jurisdiction is Brilon. Olsberg, November 2021

Registration please by mail, by fax (0 29 62) 97 19 22
or by e-mail course@implantologieklinik.de, to the secretariat

Symbios®

Discover the difference

Precise and atraumatic autogenous bone harvesting.

Frios® MicroSaw acc. to Prof. Dr. F. Khoury

For smooth and bone-preserving preparation of bone blocks and access windows

- **Highest precision** – the 0.29 mm MicroSaw disk is constructed to produce an extremely accurate osteotomy line.
- **Atraumatic** – the hinged soft tissue protector is easy to attach and to remove again. Direct blade cooling prevents overheating during the procedure.
- **Proven** – in clinical use since 1986.

Live Surgery & Hands-on-Training Program 2022

Part I – Part V
&
Clinical Master Course

Augmentation Procedures part I:

Bone Harvesting Techniques, Augmentation and Soft Tissue Surgery
with live-operations and hands-on-training

Team:

Prof. Dr. Fouad Khoury and team

Dates:

	17.-18.02.2022	Spain	sold out
	03.-04.03.2022	German	
	07.-08.04.2022	English	
	12.-13.05.2022	French	
	30.11.-01.12.2022	Chinese/English	sold out

1st day: 09.00 am to 07.00 pm
2nd day: 08.30 am to 03.00 pm

Program:

- > 10 hours live surgeries
- Aesthetic and function in implantology
- Soft tissue management: vestibuloplasty, second stage technique, roll flap, apical reposition flap
- Pathophysiology of bone transplantation
- Basics of augmentative procedures
- Bony-lid approach in implant surgery
- Minimal invasive bone augmentation: the bone core technique
- Intraoral bone harvesting techniques: instruments, method retromolar, chin
- Augmentative procedures: bone spreading, bone splitting, bone expanding, extensionplasty, bone core technique, lateral bone block graft, sinus floor elevation
- Bone substitute materials
- Hands-on-training: minimal invasive augmentation, bone core technique, bone block harvesting, split bone block technique, bone block stabilization with microscrews . . .

The participant needs previous knowledge in implantology!

Course dinner on Thursday at about 8 pm.

The number of participants is limited.

Course fee:
€ 1.890,- (+19 % Tax)

17
points

Augmentation Procedures part II:

Vertical Bone Grafting Procedures and complex Soft Tissue Management

Follow course of part I
with live-surgeries

Team:

Prof. Dr. Fouad Khoury and team

Dates:

	03./04.02.2022	Russian	sold out
	20.-21.10.2022	French	
	27.-28.10.2022	English	
	03.-04.11.2022	German	

1st day: 09.00 am to 07.00 pm
2nd day: 08.30 am to 03.00 pm

Program:

- > 10 hours live surgeries
- Planning of complex cases
- Soft tissue management part II: roll flap, rotation flap, palatal flap, free soft tissue graft, vestibuloplasty, apical reposition flap, Papilla reconstruction techniques
- Lateralisation of the nerves
- Special augmentative procedures:
 - onlay bone block graft and 3D reconstruction
 - tunnel technique
 - lateral approach
- Temporary implants and immediate loading
- Prevention and treatment of complications

! The participant needs previous knowledge in implantology
and should attended augmentation procedures part II!

Course dinner on Thursday at about 8 pm.

The number of participants
is limited.

Course fee:
€ 1.890,- (+19 % Tax)

15
points

Augmentation Procedures part III:

Sinus Floor Elevation

with live-operations

Team:

Prof. Dr. Fouad Khoury
and team

Date:

 17.-18.11.2022 German

On request in English and French.

1st day: 09.00 am to 07.00 pm
2nd day: 08.30 am to 03.00 pm

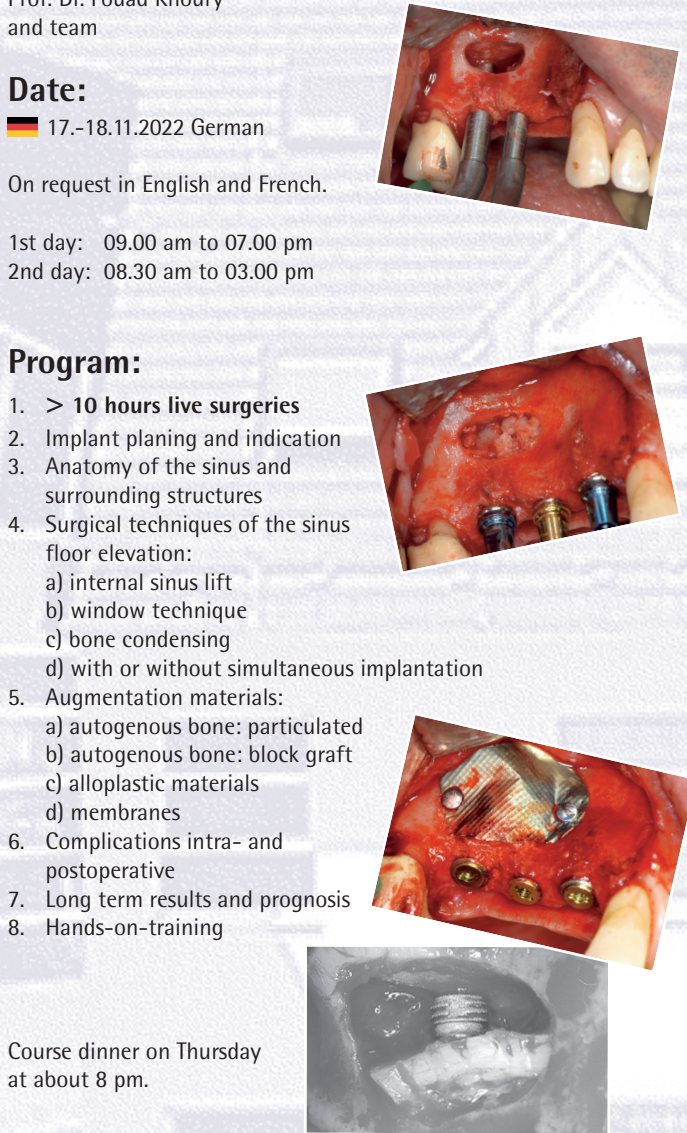

Program:

- > 10 hours live surgeries
- Implant planing and indication
- Anatomy of the sinus and surrounding structures
- Surgical techniques of the sinus floor elevation:
 - internal sinus lift
 - window technique
 - bone condensing
 - with or without simultaneous implantation
- Augmentation materials:
 - autogenous bone: particulated
 - autogenous bone: block graft
 - alloplastic materials
 - membranes
- Complications intra- and postoperative
- Long term results and prognosis
- Hands-on-training

Course dinner on Thursday
at about 8 pm.

Course fee:
€ 1.890,- (+19 % Tax)

17
points

Augmentation Procedures part IV:

Implantation, Bone Augmentation, Soft Tissue Management and Prosthodontic Restauration in the daily Office

3-days intensive training course

Team:

Prof. Dr. Fouad Khoury
OA Dr. Friedrich-Wilhelm Pape
Dr. Charles Khoury
and team

Date:

 08.-10.06.2022 English

1st day: 09.00 am to 07.00 pm
2nd day: 09.00 am to 07.00 pm
3rd day: 08.30 am to 03.00 pm

During this 3 days training, different stages of simple and advanced surgical and prosthetic treatment are demonstrated live on various patients. The participants can assist directly at all surgeries starting from simple implantation to more complicated grafting procedures with 3D reconstructions, tunnel technique and advanced soft tissue management. The different stages of prosthodontics in simple and complicated cases are also demonstrated on patients and in the lab.

Program:

- > 15 hours live surgeries
- Planning of complex treatment
- Implantation in combination with vestibuloplasty
- Intra oral bone harvesting: instrumentation and method
- Bone augmentation techniques: bone splitting/spreading/ expanding, bony lid method, block graft (lateral & vertical)
- Soft tissue management during bone augmentation, implantation and second stage surgery (vestibuloplasty, apical reposition flap, roll flap . . .)
- Advanced augmentative procedures: sinus floor elevation, vertical 3D reconstruction, tunnel technique . . .
- Prosthetic restoration
- Complications

Course dinner on Wednesday and
Thursday at about 8 pm.

The number of participants is limited.

Course fee: € 2.800,- (+19 % Tax)

23
points

Augmentation Procedures part V:

Advanced Training Program on Bone Grafting and Soft Tissue Management with Hands-on-Training on human Cadavers.

Team:

Prof. Dr. Fouad Khoury
Dr. Charles Khoury
and team

Date:

 08.-10.09.2022 English

1st day: 09.00 am to 07.00 pm
2nd day: 08.30 am to 03.00 pm
3rd day: 09.00 am to 02.30 pm

Place: Institute of Anatomy at the University of Münster

It is an exceptional course for a very limited number of participants. The course begins on Thursday 8th September in Olsberg with several live surgeries on patients and will finish on Friday afternoon at 03.00 pm. The hands-on-training on cadaver is starting on Saturday morning at 09.00 am at the Institute of Anatomy of the University of Münster. **The cadavers are prepared with an exceptional and unique method called "Thiel fixation". This method leaves to the soft tissue enough elasticity to perform in a realistic way the various techniques of soft tissue management and bone grafting.**

Program:

- > 12 hours live surgeries
- Advanced soft tissue surgery, pediculated palatal flap . . .
- New techniques of bone grafting to improve the prognosis
- 3D bone reconstruction and tunnel technique
- Sinus floor elevation and nerve lateralisation
- Complications

! The participant needs previous knowledge in implantology
and should attended Augmentation procedures part II!

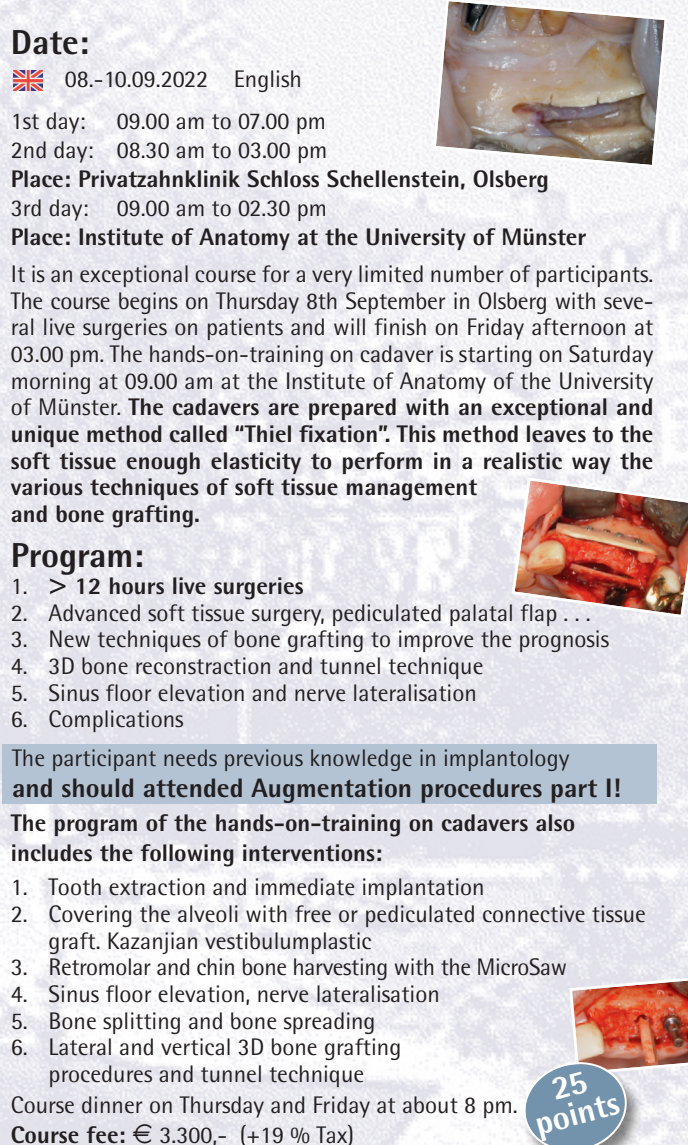

The program of the hands-on-training on cadavers also
includes the following interventions:

- Tooth extraction and immediate implantation
- Covering the alveoli with free or pediculated connective tissue graft. Kazanjian vestibulumplastic
- Retromolar and chin bone harvesting with the MicroSaw
- Sinus floor elevation, nerve lateralisation
- Bone splitting and bone spreading
- Lateral and vertical 3D bone grafting procedures and tunnel technique

Course dinner on Thursday and Friday at about 8 pm.

Course fee: € 3.300,- (+19 % Tax)

exceptional
course

Clinical Masters Program in Bone Grafting and Soft Tissue Management

6-days intensive course including theoretical background, Live Surgeries and Hands-on-Training on human Cadavers

Team:

Prof. Dr. Fouad Khoury
Dr. Charles Khoury
and team

Date:

 12.-17.09.2022 English

Day 1-4: 09.00 am to 06.30 pm
Day 5: 08.30 am to 04.00 pm
Day 6: 09.00 am to 02.30 pm (hands-on-cadavers)

During this 6 days training different topics of the courses I-V will be presented and discussed, from simple minimal invasive bone grafting to 3D vertical bone augmentation. Theoretical background supported with live surgeries and hands-on-training is presented for every topic. **The course is focusing on understanding the biological principles of bone and soft tissue healing.** On the last day the participants have the chance to do different surgeries on human cadavers (Thiel fixed) with the support of the clinic staff. Thiel fixation is a very unique technique giving the tissue excellent quality which is very similar to living tissue. This makes hands-on-training very close to real surgery in the office.

Program:

- > 15 hours live surgeries
- Planning from simple to complex treatment
- Principles of grafting procedures and bone biology. Pathophysiology of bone transplantation
- Principles of soft tissue biology and soft tissue healing: surgical design, blood supply, incisions, vestibuloplasty, pedicle flaps, connective tissue grafts, roll flap, apically repositioned flap . . .
- Minimal invasive bone augmentation: bone core technique.
- Safe bone harvesting from all possible intraoral sites
- Biologic bone grafting procedures: lateral and vertical bone augmentation, Split Bone Block Technique, 3D reconstruction, tunnel approach, sinus floor elevation.
- Restorative concept and procedure.
- Complications and possibility of prevention and treatment

Course dinner on Monday,
Thursday and Friday.

Course fee: € 7.950,- (+19 % Tax)

56
points
